Projects History

02/2015 – today:	**Technical Expertise** – Technical support and training for development team – Management of Production Planning domain developments – Performances, code quality and technology watch monitoring – New projects study and cost estimation Setting: Client's home-based mission as Technical Leader, for CGI Context: Java SE/EE, Oracle PL/SQL, Unix Shell, ETL, EAI *Time spent: 6 months*
12/2013 – 02/2015:	**Agile projects management** – Production Planning domain's Scrum Master – User Stories redaction and complexity estimation – Agile sprints following-up and management – Animating client's relationship and advancement reporting Setting: Client's home-based mission as Technical Leader, for CGI Context: Agile project, JIRA Greenhopper, JIRA Zephyr, Project Delivery *Time spent: 1 year*
09/2012 – today:	**Campus Manager** – CGI local ambassador – Recruitment forums and communication conferences – Graduate Schools and University Students Recruitment Setting: Campus Manager for CGI Context: Human Resources, Recruitment, Communication *Time spent: 3 years (ongoing)*
09/2012 – today:	**Conception, development and optimisation of Information System** – Load estimation and development – Technical Design redaction and Unitary Testing – Production Planning domain Setting: Client's home-based mission as IT Engineer, for CGI Development: Java SE/EE (WAS, Swing, JSP), Eclipse (RAD), Oracle PL/SQL, Unix Shell *Time spent: 3 years (ongoing)*
10/2011 – 09/2012:	**Development of Transversal tools for Client's Program** – Web application development (MySQL / Yii Framework) – Automated Functional Testing through Selenium IDE – Project follow-up application Setting: ISIMA sandwich courses as Analyst Programmer for Logica Development: PHP (Yii Framework), MySQL, JavaScript, AJAX, Selenium IDE *Time spent: 1 year*
04/2011 – 09/2011:	**Graphical stock visualization** – Research & development in Flex 3 – Integration into the ERP – Stock management initiation Setting: ISIMA second year intern-ship, for Qualiac® Development: Flex 3, Flex Builder, ASDoc, ANT *Time spent: 6 months*

Skills

Operating Systems:	**Windows** (2000, XP, 7), Linux (CentOS, Ubuntu, Mandriva)
Languages:	**Java SE/EE (WebSphere)**, **PHP (Yii, WordPress)**, HTML, CSS, C, C++ (CImg, Qt), Flex, Assembly ARM, Scheme, Fortran 90, R, Matlab
Database:	**SQL**, MySQL, Oracle, MS Access, OpenOffice Base
Office:	**Libre/OpenOffice**, Microsoft Office (Word, Excel, Powerpoint)
IDE:	**Eclipse (RAD)**, Netbeans, Matlab, Embarcadero C++ Builder, Visual Studio
Business Area Knowledge:	Supply Chain

Languages

French:	Native speaker
English:	Advanced (TOEIC score over 900)
Spanish:	Basic
Japanese:	Notions
Russian:	Notions

Certifications

02/2013	**Oracle Certified Associate Java SE 7 Programmer** Oracle 1Z0-803

Education

2009-2012	**Engineering License** Option: "Information Systems and decision aids" ISIMA, Clermont-Ferrand, France

2007-2009	**DEUG**
	  Two-year course in science computer
	  Université Blaise Pascal, Clermont-Ferrand, France

2004-2007	**Baccalauréat S**
	  French Baccalaureate S (equivalent to A levels (UK) / High School Leaving Certificate (US))
	  Options: mathematics and engineering science
	  Lycée Jean-Monnet, Moulins, France

Divers

IT Services:	Website migration to WordPress (original web site theme and content)
Locomotion:	Car License
